WORK EXPERIENCE

Edulab India

Software Engineer

Feb 2023 – Current

Mumbai, India

- Contributed to the development and maintenance of education-focused software applications.
- Specializing in full-stack development with technologies like React, Angular, MySQL, and MongoDB. Designed and implemented user interfaces for client-side portals, optimized backend systems for scalability and performance, and collaborated with cross-functional teams to meet project objectives.
- Responsible for ensuring compliance with educational standards and regulations, while actively participating in agile development processes and continuous learning initiatives.

INTERNSHIP

Edulab India

Junior Software Engineer Intern

Nov 2022 – Feb 2023

Mumbai, India

- During my internship, I gained hands-on experience in full-stack development with technologies like React, Angular, MySQL, and MongoDB.
- I contributed to projects including Learning Management Systems and Admission systems, collaborating with teams to optimize performance and usability.
- This internship enhanced my skills and provided valuable insights into the intersection of technology and education.

PROJECTS

Instagram Clone [🔗](#) | React, Firebase

Dec 2023

- **Firestore** for backend and database management.
- **ReactJS** for frontend development.
- **ChakraUI** for User Interface design.
